

BETHANY SCIENCE CLUB

MAGNETIC MADNESS!

Let's investigate the powers of magnets! Magnets provide a creative, hands-on method for students of all ages to explore scientific concepts. Have you ever wondered why magnets pick up some objects and not others? Learn the secret of the levitating magnet and its invisible force to magically move objects with an electromagnet. Students will engineer magnetic slime and explore magnetic mazes while investigating various design and building challenges. Join the fun as we investigate the mysteries of this invisible force!

PLEASE ENROLL MY CHILD IN BETHANY'S AFTER SCHOOL SCIENCE CLUB | I HAVE INCLUDED \$50

STUDENT NAME: _____ **EMAIL:** _____

PARENT NAME: _____ **CELL:** _____

TEACHER NAME: _____ **CHECKS PAYABLE: BETHANY SCHOOL**
