

VALLEY CHRISTIAN SCIENCE CLUB

EVERYTHING CREEPY CRAWLY – EXPLORING THE WORLD OF BUGS

Discover everything from creepy crawly ants to lovely ladybugs as we study insects and their homes. They may bother us from time to time, but insects are one of the most enduring life forms on our planet. Try developing the persistence of an ant or the athletic ability of a worm! Watch the metamorphosis of your own butterfly! Get started by observing these wiggly soil lovers up close! Your student will get to explore the habitats and the life cycles of some very extraordinary little critters.

This class is for K – 4th grade students only
